

# Pole-mounted transformer protection

## Combi unit benefits:

- Eliminate transformer failures.
- Replace spent arrester with link stick.
- Improve customer service (SAIDI).

## Customer testimonial:

*Jennifer Beresford, Mount Morelands - KZN*

*"Well since implementation on the 7 April 2013... not a single outage. Not one! In the 17 years I've lived in Mount Moreland I don't recall ever having had a consistent, reliable power supply for so long. Whatever you did to that transformer, the results so far are spectacular. I think you can safely consider your experiment in Mount Moreland to be a great success and have absolute confidence implementing it in other areas."*
