## TO WHOM IT MAY CONCERN

### DROP OUT SURGE ARRESTORS

This serves to confirm that the City of Matlosana municipality has been using drop out surge arrestors for the last couple of years and has experienced minimal, if any, transformer failures.

Since installation of the Combi units on outdoor pole mounted transformers no arrestor and even better no transformer failures occurred.

The product is highly recommended.

For more information undersigned can be contacted at 018 487 8726.

Kind regards,

**P J H BARNARD**
